Mentor-Mentee Scheme

Annual Report

Academic Year 2021-22

731 students were admitted to the college for the academic year 2021-22. Each faculty was assigned an equal number of students to teach. Following the distribution of students, the coordinator held a teacher meeting to instruct and guide them on the scheme. Their proper guideline was also provided by the code of conduct. There were a total of 28 mentors who served as guardians for the students and assisted them in resolving personal and academic issues. A committee was formed to ensure the scheme's smooth coordination. It is comprised of faculty members, the Principal, and two student representatives. The coordinator convened two meetings of these committee members during the academic year 2021-22. Following the completion of this scheme. The first meeting took place following the completion of the admissions process. During the first meeting, faculty representatives are instructed to assign an equal number of mentee students to each mentor. During this meeting, the committee member discussed various issues concerning the scheme with the entire mentor. They were instructed to follow the committee's guidelines when putting this scheme into action. The second meeting took place at the end of the academic year, when all mentors submitted their annual reports to their faculty representative member.

The following major issues were discussed with students and decisions were taken:

Discussions	Action Taken
CBCS semester pattern and marks system	Taught the pupils about the CBCS semester structure and marking system.
Demand of NCC	The proposal has been communicated to higher authorities.
Fee related problems	Fees related issue was discussed with the principal and a payment plan was approved. Teachers pushed their pupils to take part in the Earn and Learn Scheme.
Travelling Problem	Students with transportation problems are permitted to arrive 10 minutes late for morning

	classes.
Students attendance problem	Class teachers have telephonic conversation with parents to persuade them to attend classes on a regular basis.
Issues regarding online Exam	Students are given guidance regarding online exams on a regular basis.
Marriage Issue	As our college is located in a rural area, the majorities of the parents are uneducated and want their daughters to marry as soon as possible. As a result, these female students must interrupt their college education. To address this issue, our mentor visits their home and meets with the concerned parents.
Regarding the cleanliness of the regular classes	Concerned non-teaching staff were made aware of the problems.
Syllabus completion	Concerning faculty members who have been asked to take extra classes in order to complete their syllabus.
