Abstract

Management education and training has acquired a new dimension in modern world of business. After economic reforms of 1991, management education has been in a great demand. However, the management education provided in India is subject to various shortcomings that are needed to be corrected. It requires a lot of changes such as management education requires a complete revision in its structure and character. It must be in integration with needs of corporate sector, curriculum must be upgraded, course content must be revised and enriched, innovative executive programmes to be introduced. The main aim of management education should be placed. Overcoming these challenges can be considered as a boon in the Indian economy.

E-mail-minunitin11@gmail.com

Abstract

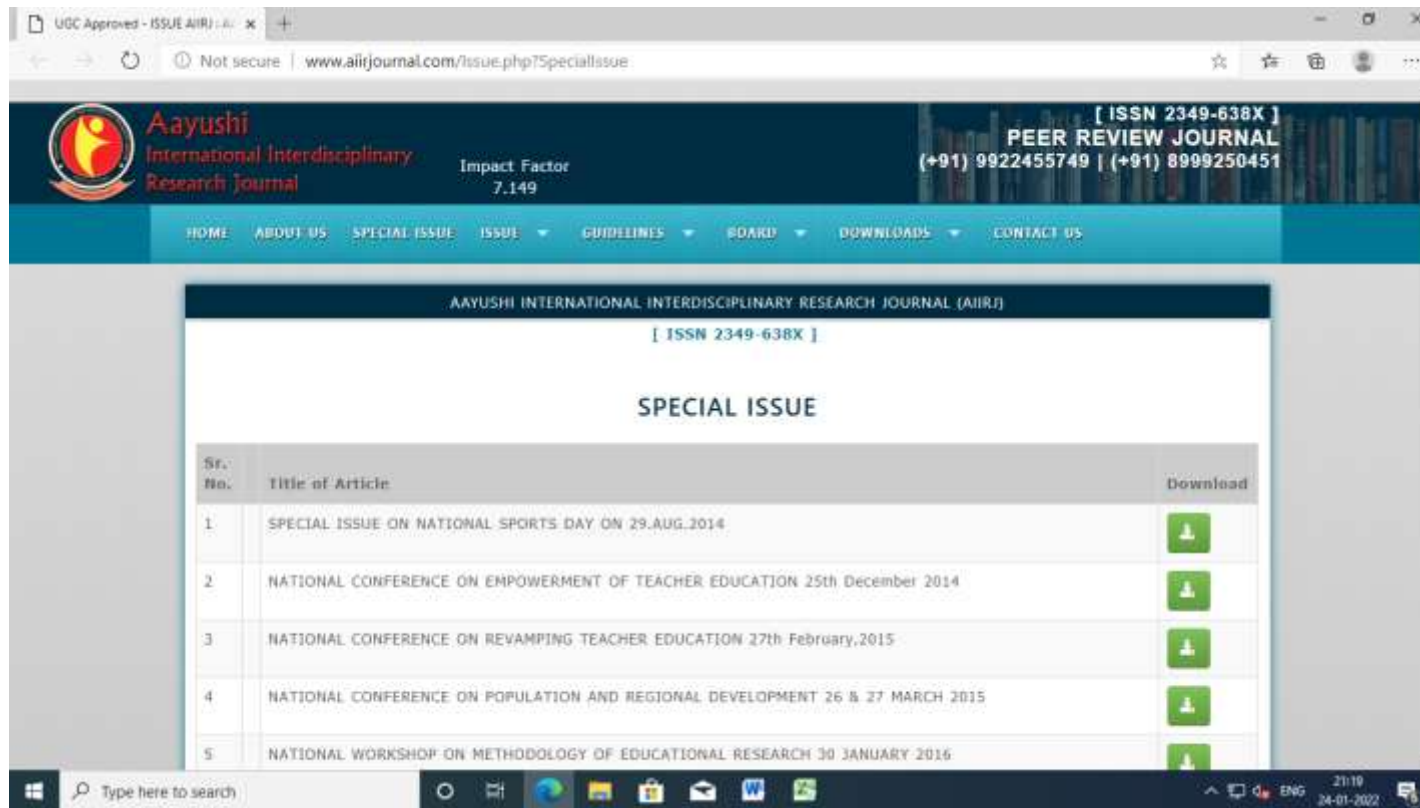

Era of globalization and liberalization has led to emergence of new technology. New technology has brought about a change in the nature of business transactions. Business transactions have become complex due to emergence of business life cycle. Management of risk has become a challenging task for businessmen today. Corporate governance became an issue of concern in India after Harshad Mehta scam that took place in 1992 followed by incidents of companies allotting preferential shares to their promoters at deeply discounted prices and the scam of sathyam. Hence a need for good corporate governance was felt to handle accounting scandals. Corporate governance is requires to reduce the quality concerns of financial statements. This paper aims to highlight developments in corporate governance in India.

San.Sudhakar Kale Arts, Commerce
& Science College, Ganamagar
A-Mahajpura, P-Kolhapur, T-
Kopangur, D-Ahmadnagar.S-Maharashtra

Abstract:
Agro Tourism, also known as Agri Tourism, is any activity based on agricultural operation that attracts tourists on the farm. Agri tourism includes a wide variety of activities, including buying produce direct from a farm stand, watching a cow race, shopping bags, picking fruit, feeding animals or staying at a bed and breakfast on a farm. Today Agri Tourism is a fast developing business in many parts of the world including India, Australia, Canada, and Philippines. It has become an important source of supplementary income to the farmers. Even tourists are fascinated by the concept where they get a chance to be in the midst of nature and help their kids to get familiar with the agricultural operations. This paper is an attempt to understand the concept of Agro Tourism and to understand various challenges and benefits to the farmers in carrying out Agro Tourism business. The paper also suggest what facilities must be made available to tourists and what factors are important in this business.

Keywords: *Agro Tourism, sustainable development, Agriprenuership*

Introduction:
Today India has attained an impressive growth in industrial and service sector, still agriculture remains the main occupation of the people in the economy. Even today agricultural sector contributes 14 per cent to the GDP and 13 per cent to the export. In fact in India agriculture is a predominant occupation where around 70 per cent of the population directly or indirectly depend upon agriculture for their livelihood. It is worthwhile to mention that 110 million farmers are dwelling in 6.25 lakh villages producing more than 200 million tonnes of food grains, feeding the whole country. But Indian agriculture is facing number of problems these days. These problems include change in climate, drought, and flood, high or low rainfall, melting of glaciers, unsustainable agricultural lands. All these vagaries of nature leads to losses and sometimes losses are so extreme that farmers are even forced to commit suicide. Besides these, new generation are not interested in taking up agriculture as an occupation. Today, the small land holders are realising the urgent need to

ABSTRACT
In chemical study as is practical there are vast use of ordinary filter papers for filtration purposes. There are many such practicals included undergraduate study mostly in India require ordinary filter paper for filtration purposes. It causes wastage of number of ordinary filter papers and ultimately environment, which it is causing harm. The use of Nylon Fabric Filter Paper having the important parameters are wet strength, porosity, particle retention, volumetric flow rate, compatibility, efficiency and capacity and the pore size greater than 1000nm same as ordinary filter paper. It gives completely and replacement option for ordinary filter paper.

Spontaneous incense stick, Prof. Pankaj Wabale

The screenshot displays the homepage of the International Journal of Current Advanced Research (IJCAR). The header features the journal's logo, ISSN numbers (2319-6475 (E) and 2319-6505 (P)), and the tagline 'Quality in open access publishing'. The impact factor for 2016 is listed as 5.995, and the ICMV is 61.97. A navigation menu includes links for HOME, CURRENT ISSUE, ARCHIVES, SPECIAL ISSUE, INSTRUCTIONS TO AUTHORS, EDITORIAL BOARD, BOOKS, SUBMIT ARTICLE, and CONTACT US.

The main content area is titled 'Spontaneous incense stick' by Author: Pankaj Laxman Wabale. The abstract discusses the use of incense sticks in various cultures and their medicinal properties. It mentions that incense sticks were used in the Vedas and the Rigveda, and that they became an integral part of Buddhism in India. The text also notes that incense sticks are used in the United States and have become popular in Asian countries. The abstract concludes by stating that incense sticks have a myriad of uses, both from a pleasure standpoint and potentially from a medicinal standpoint.

On the left sidebar, there is a section for 'AUTHORS INSTRUCTIONS' with links to 'Forthcoming articles', 'Instructions to Authors', 'Copyright Form', 'Human and Animal Rights', 'Article Tracking', 'Certificates and Acceptance', 'Cover page', 'Anti-Plagiarism Policy', 'Open Access and Licensing', 'Publication Ethics and Malpractice Statement', 'Proofs', and 'Submission'.

On the right side, there is a 'NAAS SCORE' badge from the National Academy of Agricultural Sciences (NAAS) with a score of 3.07 (2020), effective from January 2020. Below this is a 'JOURNAL DOI' badge.

 Agarbatti – Incense stick.

ABSTRACT
 An incense stick or self ignite Agarbatti contains match put at the top of the incense stick and the rough surface for the ignition provided on the incense stick has...
 Introduction: The oldest source on incense stick is the Yajur, specifically the Atharva Veda and the Rigveda. Incense stick burning was used both to create pleasing aromas and a medicinal tool. An Arabian material and tradition was founded in India, incense stick became an integral part of traditions as well. Advantages of burning incense sticks. People who hardly burn incense sticks consider them as a bad odour eliminator. Indeed, apart from burning the agar with a massaging aroma, burning an incense stick has a number of benefits. A confidence booster, burning an incense stick relaxes our body and mind. Incense stick has been popular in Asian countries for many centuries, and has been present in the United States for a long time as well. While the 1960s saw the use of incense sticks by counter culture elements, incense stick has now moved into the mainstream. Incense sticks provide not only a pleasant aroma or which to function, but also may serve as an insecticide or insect repellent. The particular combination of elements within the fragrance allows different aromas or different properties to be incorporated into different incense sticks. Additionally, incense sticks coupled with acupuncture is believed by many to promote healing. Additionally, a hole new field of holistic medicine, called Aromatherapy, has also come to selectively recruit attention by the effects of its practitioners. Thus, it is easily seen that incense sticks has a myriad of uses, both from a pleasure standpoint and, potentially, from a medicinal standpoint. This Agarbatti with match head here given me to specially formed Agarbatti stick with containing match put at the top. For example the US patent no. 6,086,074/07, it tells about the incense device of incense with match head.
